**“The Internet, our greatest tool for  
emancipation, has been transformed  
into the most dangerous facilitator of  
totalitarianism we have ever seen”.**

**“ Wikileaks is a giant library of the world’s most persecuted documents.”**

**"We publish material given to us if it is of political, diplomatic, historical or ethical importance and which has not been published elsewhere. When we have material that fulfills this criteria, we publish."**

“..even though I represented [people in finance] and did all I could to make sure they continued to prosper, I called for closing the carried interest loophole and addressing skyrocketing CEO pay. So when I raised early warnings about subprime mortgages and called for regulating derivatives and over complex financial products, I didn’t get some big arguments, because people sort of said, no, that makes sense.”

KEEP  
FIGHTING!
